Travel Closings 101

A beginner's guide to checking, logging and filing closings. No experience needed.

Closing

YOUR JOB IN ONE LINE

Check that what the broker sent matches IHQ. Then file it, or flag it.

It matches

File the placing document under the client on IHQ.

It does not match

Flag it on the policy register under Travel Actions.

Words you will hear

Term	In plain English
IHQ	Our policy system. Clients, policies and documents live here
Broker	The intermediary who sends us the business
Quote	The price we offer a client for cover
Bound	The quote is accepted and the policy is in force
Closing document	Broker paperwork confirming the cover, also called a placing document
Underwriter (UW)	The person who assesses the risk and binds the policy
Policy register	The list of policies on the client tab in IHQ
Travel Actions	Where we log any issue on the policy register

What to look at

Quote

Tagged pink. Look at it.

Closing

Tagged green. Look at it.

Everything else

Ignore the rest.

Triage

I can triage them. If you triage and you are not sure, tag it Underwriter and they will pick it up.

What a Closing email is

Closing

A broker has sent a placing document or a closing document.

Any email tagged Closing is one of these.

New process

Closing documents are uploaded to the client file on IHQ.

The process, step by step

1 A closing email arrives, tagged Closing

2 Open the placing or closing document

3 Check the dates, insured name and $$ amounts

4 Check the quote is accepted in IHQ

Everything matches?

No

If the closing does not match, try to identify why. The Underwriter then contacts the broker to solve it.

Log it on the policy register under Travel Actions

If the quote is not accepted, an Underwriter binds it through IHQ

Yes

File the placing doc into Documents under the client on IHQ

What to check

1 Dates

Do the dates on the closing match the policy on IHQ?

2 Insured name

Does the insured name match the client on IHQ?

3 The $$ amounts

Do the amounts match the breakdown on IHQ? The gross premium, including GST, should match.

4 Quote accepted

Is it Quote Accepted on the policy register? If not, an Underwriter needs to bind it through IHQ.

The policy register

On the client tab, under Policies, each policy shows one of three statuses.

Quote Referred

We have done our part. An Underwriter needs to action it.

Quote Reviewed

The quote has been sent to the client and is not accepted yet.

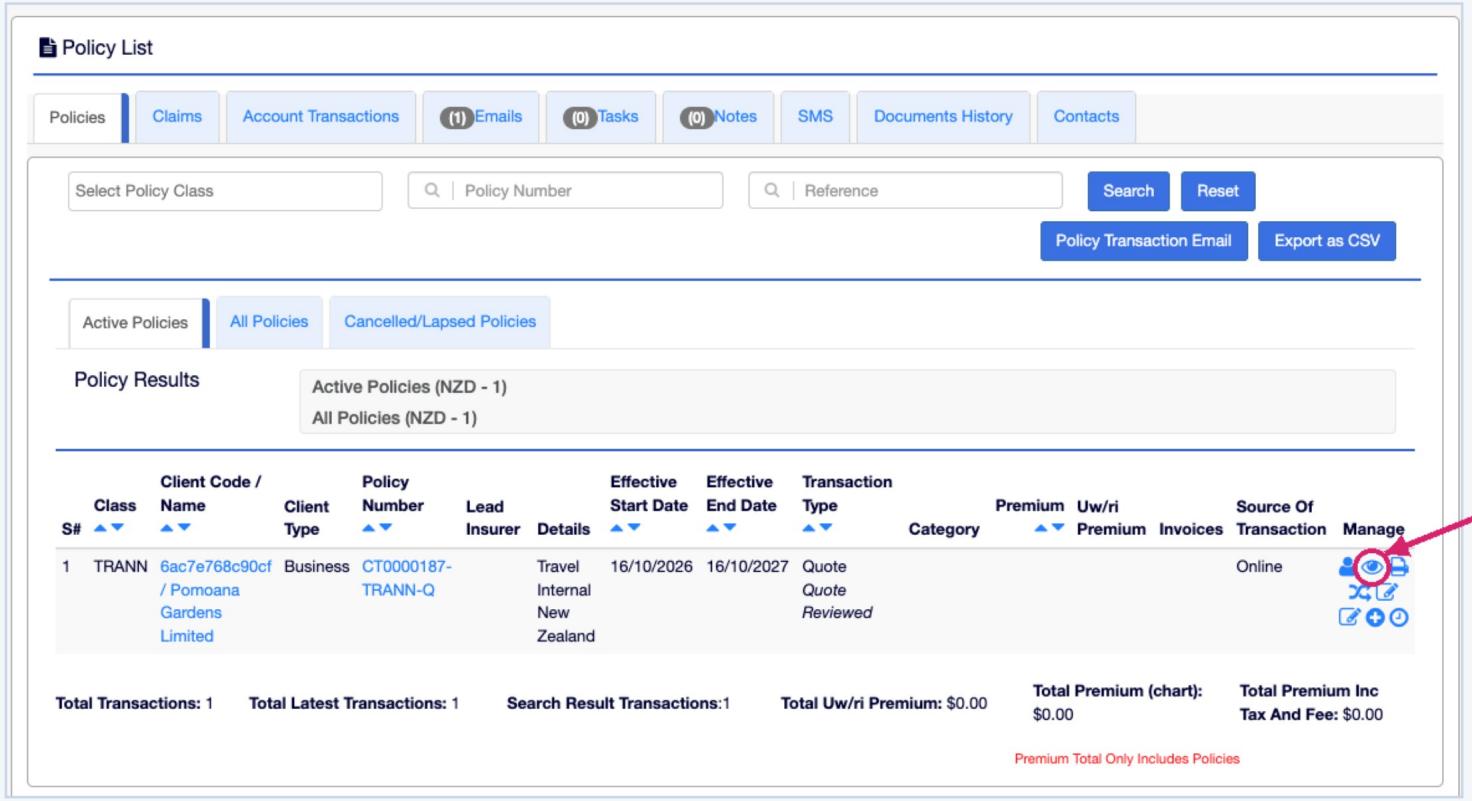

Quote Accepted

The policy is bound.

Something wrong?

A closing that does not match, or a quote that is not accepted, goes on the policy register under Travel Actions.

See the $$ breakdown

Click the eye under Manage to see the $$ breakdown.

Client tab, Policies: the status sits under Transaction Type and the eye is under Manage.

Checking the $$

20%

Broker commission

15%

GST, on NZ travel days only

Internal or international?

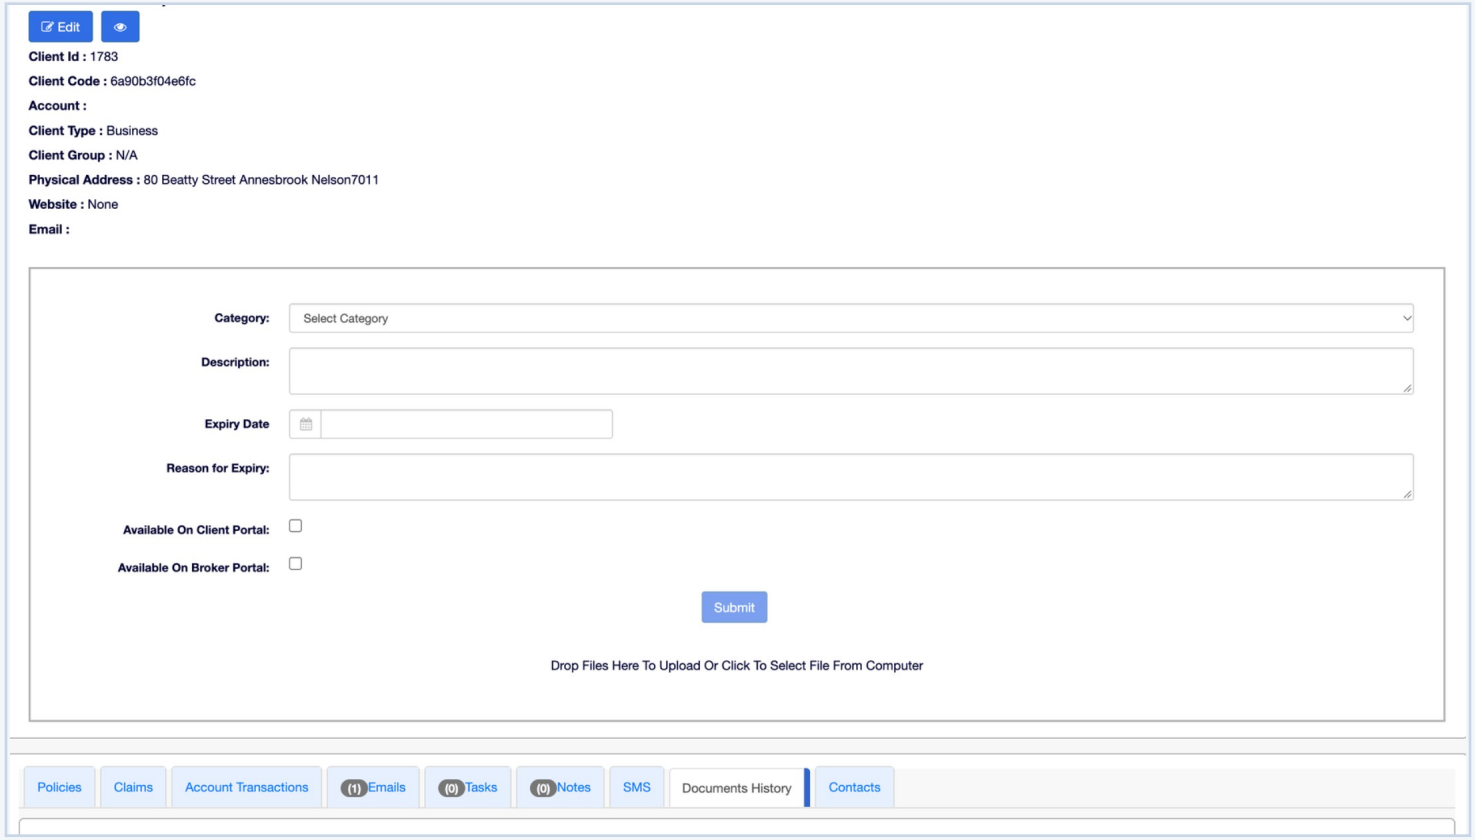

Internal cover has GST.
International does not.

The net amount on a closing

(Premium × 0.8) + GST − Broker GST

Broker GST is the GST on the broker commission, which is 20% of the GST.

Filing the placing document

Step 1

Open the client file on IHQ.

Step 2

Go to the Documents History tab.

Step 3

Drop in the placing document and submit.

Pro-rata: the common due date

Step 1

Wait for closings

Do not pro-rata until the closings are in.

Step 2

Count the days

End date minus start date, plus 1.

Step 3

Work out the %

Travel days divided by 365.

Step 4

Apply it

% × premium. Brokerage is commission × %.

Period limits: 6 month minimum, 18 month maximum

Your quick checklist

- ✓ **Email tagged Closing? Open the document**
- ✓ **Dates match**
- ✓ **Insured name matches**
- ✓ **$$ amounts match**
- ✓ **Quote accepted**

All good

File the placing doc into Documents under the client on IHQ.

Anything off

Log it on the policy register under Travel Actions.

Not sure? Tag it Underwriter and they will pick it up.
